

Results Listing From Google Scholar Search (SeaWorld, Orca): First three pages, top 30 results (11/11/2012)

Page 1 URL:

http://scholar.google.co.uk/scholar?q=seaworld+orca&btnG=&hl=en&as_sdt=0%2C5

The screenshot shows a Google Scholar search results page. At the top, there is a navigation bar with back, forward, and refresh icons, and a search bar containing the text 'seaworld orca'. Below the search bar, the Google logo is visible. The search results are listed under the heading 'Scholar' and show 'About 1,040 results (0.66 sec)'. The results are organized into sections: 'Articles', 'Legal documents', and 'Any time'. The 'Articles' section lists several papers, including 'Killer whale (Orcinus orca) reproduction at Sea World', 'The behaviour and training of a Killer whale Orcinus orca at San Diego Sea World', 'Aspects of growth in captive killer whales (Orcinus orca)', 'Nursing parameters in captive killer whales (Orcinus orca)', 'Characterization of male killer whale (< i>Orcinus orca</ i>) sexual maturation and reproductive seasonality', 'A classification and comparison of vocalizations of captive killer whales (Orcinus orca)', 'Observations on the birth and development of a captive-born Killer whale Orcinus orca', and 'Allometric relationships and sexual dimorphism in captive killer whales (Orcinus orca)'. Each result includes a title, authors, journal information, and a brief abstract. There are also options to 'Cite', 'BL Direct', and 'All versions'. At the bottom of the page, there is a 'Go to page' section with a 'Next' button and a 'Create alert' option.

[Killer whale \(*Orcinus orca*\) reproduction at Sea World](#)

DA Duffield, DK Odell, JF McBain, B Andrews - *Zoo Biology*, 1995 - [Wiley Online Library](#)
Abstract **Sea World** has maintained killer whales (*Orcinus orca*) since 1965. The total killer whale inventory (1965–1993) has included 39 whales (25 females, 14 males); 28 were wild-caught and 11 captive-born, including one second-generation calf. As of September, 1993 ...
